

**Chartwell Consultants Ltd. is a consulting firm specializing in services and solutions for the resource sector. With tightly integrated Forestry and GIS departments, Chartwell has a close-knit team, a diverse client base and a reputation for outstanding quality and service. Our Head Office is located in North Vancouver, with additional offices in Chilliwack, Gibsons and Squamish.**

---

### **Overview:**

Chartwell Consultants Ltd. is looking for an outstanding individual to join our team of GIS Professionals. Our mission is to provide the highest calibre of service to meet the needs of our clients, and we are only as good as the people on our team. We are looking for a **GIS TECHNICIAN** who is motivated, positive, and dependable. The position will be based out of our Squamish office.

### **What We Offer:**

- A diverse range of work with a multitude of clients
- A fun yet professional and safety-oriented work environment
- A competitive salary commensurate with experience
- A comprehensive benefits package along with a profit-sharing program
- Detailed on-the-job mentoring and training
- Experience with a variety of enterprise data management systems and open source software packages
- Opportunities to grow and build your career in an environment that recognizes talent

### **Job Description:**

The successful candidate will provide mapping services and support for Forestry and Utilities based projects. The position will focus on servicing requests from our client Hedberg and Associates Consulting Ltd. Working closely with staff and clients, the individual will primarily be responsible for the following:

- Generating and reviewing maps
- Managing incoming field collected data from clients and staff
- Converting, importing, managing, and manipulating data from a variety of sources
- Performing QA/QC tasks to ensure GIS data integrity
- Creating and updating python scripts
- Creating and updating system and user documentation
- Troubleshooting issues related to GIS

### **Qualifications:**

- A minimum of two years of GIS experience working on forestry-based operational mapping projects
- GIS Diploma or equivalent training
- Experience using ESRI software products for mapping and analysis
- Experience leveraging data driven pages or other methods for automated map production workflows
- Experience programming using Python
- Excellent data management and cartographic skills
- Strong reasoning and troubleshooting abilities
- Excellent attention to detail
- Excellent oral and written communication skills with attention to customer service
- Canadian citizenship or legally qualified to work in Canada

### **Application:**

If you are interested in working with us, please forward your resume with cover letter to [GISTeam@ccl.ca](mailto:GISTeam@ccl.ca). Applications will be accepted until the position is filled. We look forward to hearing from you!

---

**We thank all applicants for their interest; however, only those selected for an interview will be contacted.**
